VAIBHAV YADAV

Associate Product Implementation Consultant | AI Engineer in
Progress | Python • SQL • Machine Learning • Generative AI |
Building AI Solutions & Intelligent Automation
Gurugram, Haryana, India

Summary

I'm a highly motivated BTech student at Meerut Institute of Engineering and Technology (MIET), Meerut, Uttar Pradesh, India. My passion lies in leveraging technology to tackle real-world challenges and create impactful solutions. I'm particularly enthusiastic about the fields of (mention your areas of engineering interest - e.g., Automation, Data Analysis, etc.), and I believe my skillset aligns perfectly with these areas.

Throughout my academic journey, I've developed a strong foundation in programming languages like Python and MATLAB. I'm proficient in utilizing SQL for data manipulation and analysis, and I possess expertise in data visualization tools like Power BI. My experience with SCADA systems allows me to understand industrial automation processes, and my knowledge of Autodesk software equips me to contribute to the design and development stages of engineering projects.

Beyond academics, I actively seek opportunities to apply my knowledge in practical settings. (Mention any relevant projects you've undertaken - e.g., personal projects, hackathons, internships). These experiences have not only solidified my understanding of these technologies but also fostered my teamwork and problem-solving skills.

I'm a quick learner with a strong work ethic and a genuine desire to learn and grow. I'm eager to collaborate with talented individuals and contribute to innovative projects in the field of (mention your areas of engineering interest). I believe my technical skills, combined with my enthusiasm and dedication, make me a valuable asset to any team.

I'm a quick learner with a strong work ethic and a genuine desire to learn and grow. I'm eager to collaborate with talented individuals and

contribute to innovative projects in the field of (mention your areas of engineering interest). I believe my technical skills, combined with my enthusiasm and dedication, make me a valuable asset to any team.

Experience

engineo solutions

Associate Consultant

August 2025 - Present (1 year 1 month)

Gurugram, Haryana, India

Designed and optimized SQL queries to support HRMS deployment and employee data migration.

Performed data validation and cleansing to ensure accurate and reliable HR data transfer.

Developed Python-based reporting tools for HR analytics and integrated them into interactive dashboards for real-time insights.

Contributed to process automation and improved reporting efficiency by streamlining data workflows.

Scalerconsultancy

Business Analyst Intern

April 2025 - May 2025 (2 months)

Education

Meerut Institute of Engineering and Technology(MIET)

Bachelor's degree, Electrical Engineering · (August 2021 - July 2025)
